

Introducing UCC Medicare Advantage Plan with Rx Effective January 1, 2021

Dear UCC Medicare Supplement Plan Participant,

We hope that you and your loved ones are well and safe in these unprecedented and challenging times.

Many of our Medicare Plan participants have shared with us that, while they are generally pleased with the flexibility and range of services offered by the current Medicare Supplement w/Rx Plan, its relatively-high cost presents a financial challenge. In response to your feedback, and as part of the Pension Boards' commitment to offer you the most comprehensive and cost-effective health benefits coverage, there will be an important change to your current Medicare Supplement Plan with Rx starting in the 2021 Plan Year.

The UCC Medical Plan is partnering with Humana to offer you and your Medicare-eligible dependents a Plan that covers both medical and prescription drug costs, and with access to a preferred provider organization (PPO) network of health care providers.

The New UCC Medicare Advantage Plan With Rx Will Replace the Current UCC Medicare Supplement Plan, Effective January 1, 2021.

After thoughtful review of available options, the Pension Boards selected Humana, Inc., as the vendor partner to administer the **UCC Medicare Advantage Plan with Rx**. Humana is a proven nationwide leader in providing Medicare Advantage Plans, consistently earning a 5-Star rating with the Centers for Medicare and Medicaid Services (CMS). The company has participated in communities around the country for over 30 years and has established a national presence, with over 8.8 million Medicare members across all 50 states. Humana can support you on your health and wellness journey.

What are Some of the Highlights of the New UCC Medicare Advantage with Rx Plan?

- lower monthly premiums (NOTE: Detailed premium rates will be available in July);
- one nationwide premium rate, with no age rating;
- continued billing and payment through the Pension Boards;
- all-in-one benefits, including medical and pharmacy services;
- choice of a Standard or Value pharmacy plan;
- nationwide network of physician and hospital services;
- coverage for in-network and out-of-network services;
- no referrals necessary;
- enhanced benefit schedule, including gym memberships through **Silver Sneakers** and other wellness tools and resources to help you reach your personal health goals; and
- coverage during international travel.
