Bond Fund

The Pension Boards
United Church of Christ, Inc.

OVERVIEW

- The Bond Fund seeks to provide maximum total return by investing in diversified fixed income securities through active management.
- The highly skilled managers have diverse specializations and approaches to provide diversification and reduce risk.
- The Fund is suitable for investors who are willing to accept a greater degree of principal and income volatility. Over long periods of time, the return to investors in this Fund should exceed the return to investors in the Stable Value Fund.

TOP ACTIVE MANAGERS BY ASSET CLASS

PENSION BOARDS CORE FIXED INCOME TEAM

Core fixed income manager that invests in government and corporate bonds, residential and commercial mortgage-backed securities, asset-backed securities and inflation-protected securities. The process is driven by a disciplined top-down macro approach coupled with bottom-up security selection within the context of relative-value analysis and rigorous risk management. It is a socially responsible fund with a generally more conservative risk posture.

VOYA BANK LOANS

Ultra-short duration floating-rate income manager that invests primarily in privately syndicated, below investment grade senior secured corporate loans. The process includes a top-down analysis of target industries with strong operating momentum or improving credit conditions, while avoiding those sectors prone to the clustering of defaults. In addition, credit analysis is conducted using a fundamental bottom-up approach that includes a relative value assessment.

PGIM U.S. BROAD MARKET HIGH YIELD

U.S. high yield manager uses a rigorous bottom-up, relative-value approach to fundamental research with analysts specialized by industry. This is accompanied by incorporating top down themes. Credit research and selection are the foundation of the fund, with a focus on downside protection. The portfolio is monitored for various risks – interest rate, beta, industry, issuer, and quality. ESG is embedded in the investment process.

INVESTEC EMERGING MARKET LOCAL CURRENCY DYNAMIC DEBT

Emerging market local currency manager based predominantly on relative country and currency decisions. The investment approach considers three sets of key factors – changing economic fundamentals, valuations, and market price behavior. The top-down process helps determine the general outlook for emerging markets and to identify different themes in the market.
